This exclusive development is distinguished by significant enhancements in design and comfort. Comprising 31 modern apartments, it offers ground floor options with two bedrooms and top-floor options with three bedrooms. The top-floor apartments include a spacious solarium of over 90 m², perfect for enjoying private moments, equipped with an enclosed summer kitchen, toilet, and pergola.

Each property comes with its own parking space: an enclosed garage for the upper apartments and an enclosed terrace for the ground-floor ones. This innovative project will be developed in two phases, starting with 16 apartments in the first phase and followed by 15 in the second.
