Exclusive villas in Finestrat - Nature, design and comfort tailored for you  
Imagine waking up each day surrounded by trees, with the song of birds as the only background noise. In the greenest and most tranquil area of Finestrat, a unique project is born: only 5 private villas with modern design, where light, privacy and comfort take centre stage.

These elegant two-storey homes come with their own garden, private pool and high-quality finishes, designed for those who value detail and the Mediterranean lifestyle. Already under construction and with a license granted, it is the ideal time to secure your new home in a privileged location.

What makes this project special?
