This new-build property development consists of a total of 62 apartment-type homes, designed with functionality, comfort, efficiency and construction quality in mind. The project has been conceived to offer a modern and exclusive residential environment, tailored to current needs for liveability and wellbeing.

The residential complex will feature spacious and well-maintained communal areas, aimed at the enjoyment and interaction of residents, including the following:

Communal swimming pool. Extensive landscaped areas and green spaces. Coworking area equipped for professional and social use. Large capacity indoor and outdoor parking spaces. Common areas.
