Discover these four sustainable homes featuring three bedrooms with built-in wardrobes, along with two fully equipped bathrooms, a spacious living room, a fully furnished kitchen, and a lovely terrace. The properties are available on the ground floor with both front and back terraces/gardens, or on the upper floor boasting a terrace and a private solarium. The exclusive first-floor options include solar panels installed on the roof for energy savings.

The kitchens are completely furnished and finished with either granite countertops or synthetic agglomerate surfaces like Silestone. Bathrooms are equipped with high-quality fixtures and hidden cistern systems.
